

# Simplify Third-Party Risk Management for Every Client

Assess vendor risks, uncover security gaps, and gain a complete picture of each client's security posture.

## The Hidden Burden of Third-Party Risk

As you take on a growing number of clients, managing third-party risk across dozens of shared vendors becomes increasingly complex. Manual assessments are time-consuming, inconsistent, and disconnected from the broader security picture.

Cynomi's Third-Party Risk Management (TPRM) module enables you to efficiently assess third-party risks and enhance each client's cybersecurity posture. Fully embedded into the Cynomi platform, it fits seamlessly into your workflows, simplifies vendor risk management, and identifies security gaps that unlock new upsell opportunities.

### Key Features:

- Security and compliance in one view
- Centralized vendor management
- Shared vendors across clients
- Structured, collaborative assessment
- Automated risk scoring
- Risk heatmap visualization
- Export and reporting tools

## How Cynomi Streamlines Vendor Risk Management Across Clients

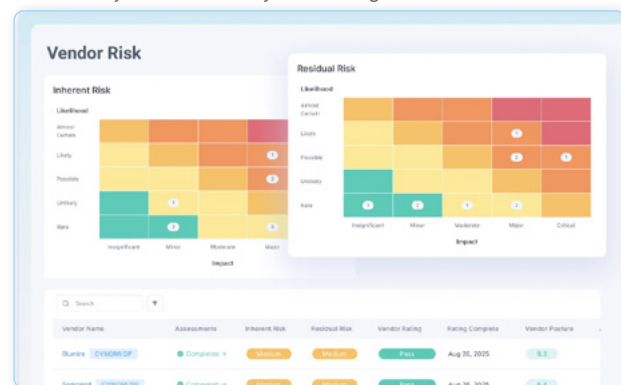

Cynomi's TPRM module simplifies vendor risk management with a structured, repeatable workflow that fits seamlessly into your existing service delivery.

**Automate & Centralize Assessments:** Send questionnaires, configure impact forms, and manage responses, all from a single platform.

**Score Risk with Business Context:** Evaluate vendor documentation, apply a standardized scoring model, and categorize risk by impact and likelihood.

**Monitor & Report Across Clients:** View vendor risk in a heatmap, export reports, and track assessments across clients for continuous visibility.

## Key Benefits for Service Providers

### Centralize and Simplify Vendor Risk Management

Manage third-party risk across all client vendors in one platform, eliminating spreadsheets, tool switching, and duplicated effort.

### Scale Efficiently Across Clients and Vendor Ecosystems

Standardize assessments, reuse vendor data across clients, and align with multi-client workflows without changing how you operate.

### Accelerate Reviews with Automated Risk Prioritization

Use built-in questionnaires, automated security scoring, and heatmaps to complete vendor assessments faster and focus on the highest-risk exposures.

### Strengthen Compliance and Audit Readiness

Provide structured assessments, centralized evidence, and clear vendor risk ratings to support regulated clients and streamline audit preparation.

### Turn Vendor Risk into Strategic and Revenue

#### Growth Opportunities

Connect third-party risk insights to remediation tasks, broader security conversations, and additional service recommendations that expand client relationships and drive profitability.

### Turn Vendor Risk into Stronger Business Results Today

**79%+**

Reduction in vendor assessment time

**\$1K+**

Savings per vendor assessed

**30%+**

Increase in gross margins

## Take the Next Step with Cynomi

Cynomi embeds third-party risk management directly into your existing workflows, connecting vendor assessments, risk scoring, compliance oversight, and client reporting in one structured, scalable platform. This enables you to manage vendor risk across every client with consistency and confidence, uncover security gaps faster, and turn third-party risk insights into stronger client relationships and new growth opportunities.
